This twin-pole design provides a very roomy tent for two--plus it offers excellent ventilation and two large vestibules for gear stowage.

## Features

- Double side-entry D-shaped doors open to two large vestibules for lots of personal storage space
- Hooped pole design provides great head and shoulder space, while the sleek tapered body fits into those quaint, private tent sites
- Large front and side mesh panels maximize ventilation, save weight and are tightly woven to keep tiny pests out
- Seam-taped, full-coverage polyester rainfly keeps weather out and resists stretch when wet
- Rainfly features a UVX-film window for views outside and extra light; UVX-film is tearproof, will not cloud and is UV- and temperature-resistant
- Water-resistant rainfly zippers are sewn with the right-side in, offering greater protection from outside weather
- Off-ground perimeter seam keeps critical floor-to-sidewall seam up off the ground for extra waterproofness; centenary-cut seams offer a taut pitch
- Bias-bound zippers keep operation smooth and snag-free with nice, even tension; zippers are less stressed so they last longer
- Non-wicking grommet tabs feature locking pole tips for ease of set up
- Large stake-out loops accept both skis and snow pickets
- Large mesh pockets and webbing hang loops keep personal items organized inside tent
- Comes with stuff sack, pole sack, peg sack, aluminum pegs and Seam Grip®
- Average minimum weight specification includes tent, poles and rainfly only

Imported.
