This 2nd Generation Bup mount for Topeak Beamrack MTX bike racks will attach a Garmin Varia in place of the OEM reflector. It is designed to match the style of the Beamrack and not interfere with the quick release functionality of the rack. The mount will securely position a Garmin Varia for optimal visibility and operation free and clear of the items on the bike rack.

NOT COMPATIBLE WITH VARIA MODEL RCT715 (Radar + Camera)

Made in USA

Compatibility

- Garmin Varia RTL500, RTL510, RTL515, RVR315
- Garmin Varia Rearview
- Topeak MTX Beamrack Type-A
- Topeak MTX Beamrack Type-E
- Topeak MTX Beamrack Type-V
- *NOT COMPATIBLE WITH MTX BEAMRACK EX*

Features

- Lightweight (15g) and styled to match the Beamrack
- Securely attached - cannot be removed without tools
- Mounts the Varia 20 mm (~3/4 in) below the QR slide plate
- Rubber ring prevents Varia twist out from side-to-side motion
- Included v2 safety tether ensures your device stays with your bike

INTENDED USE

 1	CONDITION 1	This is a set of conditions for the operation of a bicycle on a regular paved surface where the tires are intended to maintain ground contact.
	INTENDED	For paved roads or dirt roads that are in good condition, and bike paths
	NOT INTENDED	For off-road or mountain bike use, rough gravel and unpaved roads, or any kind of jumping.

This mount is intended for use with bicycles used on paved or relatively smooth unpaved surfaces. Our mounts can be used with electric bikes up to class 3. ASTM International standard F2043-13.

2nd Generation Improvements

We switched from the previous quarter-turn insert to the thicker and more durable standard Garmin quarter-turn insert. This insert is stronger and able to absorb greater loads and is directly compatible with the OEM version.

Like our standard Garmin Varia mount arms, we added a tab at the bottom to help mitigate the torsional loads on the quarter-turn insert. This makes the mount even more reliable than the previous generation.

This mount will accommodate all Garmin Varia models except the radar/camera Varia RCT 715.

All BUP mounts are manufactured and hand assembled in the USA

Patent # US D902,014 S, D893,285 S

The Garmin Varia, GoPro, saddle bag, and saddle are shown for illustrative purposes only and are not included.
